Creating Tasmania's Future Q & A Discussions @ SLE 2011

What will Tasmania look like in 25 years? Our economy, community, and land use? How will we move around, power our cities and what will we eat? Join our remarkable line-up of prominent Tasmanians and experts as they explore these questions and more as part of our series of Q & A style discussions at SLE 2011.

The objective of these sessions is to explore both the opportunities and challenges of creating sustainable lifestyles and livelihoods in our Island State.

Please join in the conversation and put your questions to our panels. We invite you to submit your question to the panel online or come and be part of the audience on the 5 & 6 November.

Submit your questions online at:

sustainablelivingtasmania.org.au/expo/discussions.htm
